Work experience

- May 2022** Deloitte Digital, Milano
User Experience Designer
-
- Now**
- **User-Centered Design & Prototyping:** Designing high-fidelity wireframes and interactive prototypes in Figma, ensuring usability and alignment with client needs across telecommunications, cruises, and pharmaceutical platforms.
 - **Accessibility & Compliance:** Leading accessibility audits, evaluating platforms using WCAG guidelines, and providing actionable feedback to ensure compliance, especially in the banking sector.
 - **Cross-Functional Collaboration:** Facilitating workshops and co-design sessions, aligning client needs with design solutions and presenting interactive prototypes for approval.
 - **Technical Proficiency:** Inspecting code and leveraging design systems to ensure consistency and accurate implementation across projects.

Feb 2021 Creative Bulls, Milano
UX/UI Design intern

-
- Jun 2021**
- **Platform Design & Prototyping:** Developed a Superbonus platform, starting with information architecture and wireframes, then creating high-fidelity mockups for the final design.
 - **Client Collaboration & Team Coordination:** Held regular client meetings for feedback and alignment with their needs, while collaborating with the team to meet business and technical goals.
